ALL THAT ADVERTISING-TECHNICIANS AND PHOTOGRAPHERS WANT

Neschen laminators have been the synonym for professional, flexible and reliable laminating machines since the 1970s. The current Neschen range offers everything service providers or photographers could wish for, from price-conscious entry-level devices to high-end multifunctional laminators. Hot and cold lamination, user-friendly operation, high working speed and a wide range of applications characterise Neschen laminators. Exceptional quality at an unbeatable price-performance ratio.

When designing the laminators, we placed great emphasis on the fact that a large part of the maintenance can be carried out by the users themselves – this saves time and money.
